

Stillingsplan IMV

A post in Nordic Music was advertised two years ago, which was unsuccessful in its recruitment. In our opinion this was a major setback for IMV, given the teaching, research, new teaching modules, and research activities undertaken by staff and stipendiats. This Nordic post fulfils two major functions: 1. It unites all the disciplines on offer within musicology at IMV, and 2. It meets the aims and objectives of UiO: Norden, identified by UiO as a satsingsområdet. It is imperative that this post is re-advertised and ranked at the top of the list of the new stillingsplan, with the same job description used earlier to advertise this post.
